National Wildlife Refuge

Hunting and Fishing Regulations 2013-2014

Savannah NWR

Jasper County, South Carolina

Effingham and Chatham Counties, Georgia

Savannah is one of over 560 national wildlife refuges. The primary objective of a national wildlife refuge is to provide habitat for the conservation and protection of all species of wildlife. The harvest of surplus animals is one tool used to manage wildlife populations at a level compatible with the environment, provide recreational opportunities, and permit the use of a valuable resource.

Public hunting on the Savannah National Wildlife Refuge is permitted on approximately 20,000 acres. Certain areas (marked on the map printed on the reverse side) are closed to hunting.

The regulations listed below supplement the general regulations which govern hunting on wildlife refuge areas as set forth in Title 50, Code of Federal Regulations. In addition to Federal regulations, State game and fish laws and regulations are adopted and in effect unless they have been further restricted by Federal law or regulations (<http://www.gohuntgeorgia.org> or <http://www.dnr.sc.gov/hunting.html>). All Coast Guard and State boating regulations will be enforced. **Licenses, permits, all hunting and fishing equipment and effects, and vehicles or other conveyances are subject to inspection by Federal and State officers.**

General Hunting Regulations

To participate in refuge non-quota hunts, hunters must possess and carry a signed refuge hunting regulations brochure on their persons at all times, in addition to any required State licenses.
